PROFILE

I have worn many hats and delved deep in international business both as an owner and an executioner. Having lived in the United States, The Netherlands, China and Thailand as a business owner and an employee has given me a remarkable perspective, and business skills that I believe will positively contribute to any organisation. My passion and experience in setting up diverse businesses and working for established entities has thus far sharpened my skills to accurately forecast, objectively advice and draw linear winning strategies in various business departments.
